OUR PURPOSE

Providence Christian Academy is a rigorous, Christ-centered, college preparatory institute for grades Pre-Kindergarten through 12th Grade. In partnership with our parents, we provide a "whole education" for the heart, mind, body, and spirit of our students. **Providence Christian Academy** accomplishes this goal through our programs in academics, athletics, and spiritual disciplines based on the inerrancy of the Bible.

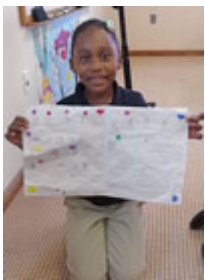

At **PCA**, we provide small classroom settings with a caring

faculty and goal oriented teaching environment for your family's educational needs. In so doing, we help you to help your children choose the right path in life.

ACADEMIC EXCELLENCE

At **Providence Christian Academy**, our mission is to provide each student with a comprehensive education, based not only on intellectual knowledge, but backed by spiritual wisdom and truth. We do this in the context of strong relationships and Christian fellowship among parents, staff, students, and community leaders.

Pre-Kindergarten and Kindergarten

The evidence from scientific study is clear that character and ability to learn are formed during the very first years of life. Early childhood experiences are critical to the emotional and intellectual development of children. This being the case, why not place your children in a Pre-Kindergarten or Kindergarten where teachers and assistants promote a godly environment consistent with your Christian values? Get your precious ones off to the right start in life by enrolling them in Pre-Kindergarten and Kindergarten at **Providence Christian Academy**.

Elementary and Secondary School Curricula

We use the [A-Beka curricula](#) for elementary grades. We use the [Bob Jones curricula](#) for secondary levels. These curricula are based on sound scholarship, common sense, and the Word of God.

The Christian approach to education and the Christian approach to life are woven throughout. These curricula ensure that

students are taught new material on each grade level with sufficient review of previous material.
